

# FLOW BENCH | EDITION

**PREMIUM**

## **Presentation of the New FLB Series**

Read more about our Edition on the next pages

## EASY HANDLING

due to the TFT touch

## FAST MEASURING

due to our patented TM-A System

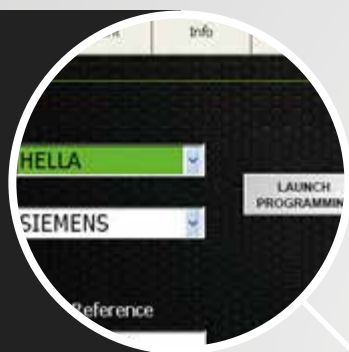

## INTELLIGENT CONTROL

due to our intuitive measuring software

## iPROG

iPROG is a system which allows the programming of electronic actuators. VISCOM is the first manufacturer to offer you a Flow-Bench with integrated programming device for the different types of Hella as well as SIEMENS actuators.

## iCOM

iCOM enables the testing and controlling of all actuators and magnetic valves on the current market: HELLA, SIEMENS, MITSUBISHI, SONZEBOZ, DENSO, GRINDS, PIER CASTLE.

## Plug & Play

Plug & Play is a quick and easy connection to the different electronic actuators. An easy handling, quick operational readiness and high efficiency are the key points of the development of this unique adapter system.

 **ALL INCLUSIV**

- VISCOM TM-A System
- Industrial TFT 15,6" Touchscreen
- Measuring software VISCOM (Premium Edition)
- Database including over 1.000 references
- Database for electronic turbo chargers (Tester ATD-1 and Delta Tech VNTT Pro)
- Server Update optional
- Software available in GER, GB, PL, FR, IT, RU, SP
- Automatic Control of Power Unit
- Automatic Capturing (hPa) and (°C)
- Automatic Actuator Control (PAS)
- Industry Control System (Beckhoff)
- Pneumatic Actuator Control (PAP)
- Complete Plug&Play Adapter System
- iCOM-System  
Intelligent Communication System
- iPROG-System  
Intelligent Programming System

 **ALL INCLUSIV**

- VISCOM TM-A System
- Industrial TFT 15,6" Touchscreen
- Messprogramm VISCOM (Premium Edition)
- Datenbank mit über 1.000 Referenzen
- Datenbank für elektronische Turbolader (Tester ATD-1 und Delta Tech VNTT Pro)
- Server Update optional
- Programm wahlweise in D, GB, PL, FR, IT, RU, SP
- Automatische Regelung der Antriebstechnik
- Automatische Erfassung (hPa) sowie (°C)
- Pneumatische Aktuatorsteuerung (PAS)
- Industriesteuerungssystem (Beckhoff)
- Pneumatische Aktuatorprüfung (PAP)
- Komplettes Plug&Play Adaptersystem
- iCOM-System  
Tester für el. Ladedrucksteller
- iPROG-System  
Programmiergerät für el. Ladedrucksteller

 **ALL INCLUSIV**

- VISCOM TM-A system montażowy
- Przemysłowy monitor TFT 15.6"
- Program pomiarowy VISCOM (Premium Edition)
- Ponad 1.000 referencji pomiarowych
- Baza danych do testerów ATD i Delta-Tech
- Aktualizacja bazy danych przez serwer
- Oprogramowanie dostępne w siedmiu językach D, GB, PL, FR, IT, RU, SP
- Automatycznie regulowana prędkość napędowa
- Automatyczny pomiar ciśnienia atmosferycznego i temperatury powietrza
- Automatyczne sterowanie siłownikiem pneumatycznym (PAS)
- Przemysłowy system sterowniczy (Beckhoff)
- Test siłownika pneumatycznego (PAP)
- Komplet adapterów Plug&Play
- iCOM-System  
System sterowania siłownikami elektronicznymi
- iPROG-System  
System programowania siłowników elektronicznych

 **ALL INCLUSIV**

- VISCOM TM-A System
- TFT Monitor 15.6" Touchscreen industriale
- Programma di misurazione (Premium Edition)
- Banca dati con più di 1.000 riferimenti di misurazione
- Banca dati per turbocompressori elettronici (Tester ATD-1 e Delta-Tech)
- Server di aggiornamento
- Programmazione a scelta in D, GB, PL, FR, IT, RU, SP
- Controllo automatico della tecnica di motorizzazione
- Misurazione automatica della pressione (hPa) e della temperatura operativa (°C)
- Controllo automatico del trasduttore di pressione (PAS)
- Sistema di controllo industriale (Beckhoff)
- Controllo degli attuatori pneumatici (PAP)
- Completo sistema Plug&Play
- iCOM-System  
Dispositivo di programmazione per i regolatori elettronici della pressione di alimentazione
- iPROG-System  
Tester per i regolatori elettronici delle pressione di alimentazione
